OTHER METHODS TO SIGN-IN

Step 1: Go to https://aka.ms/MFASETUP or scan the QR code and Sign in to your RMIT email

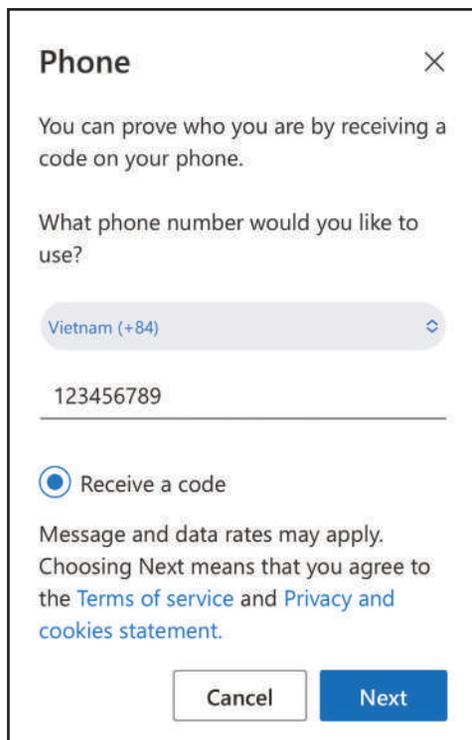

Step 2: You can choose between 'Add sign-in method' and 'Change' or 'Delete' your Authenticator methods

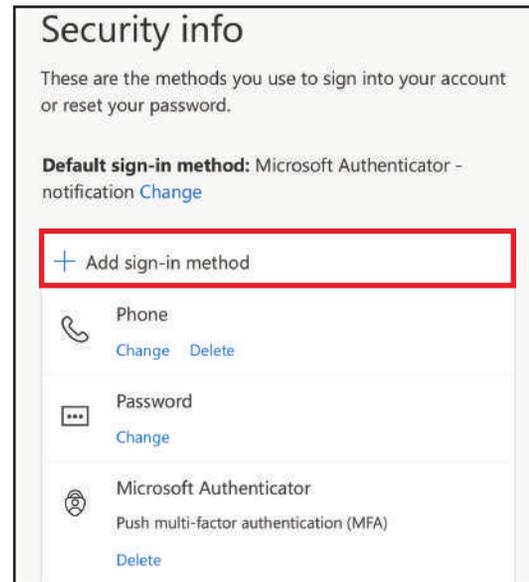

Tips: Phone authentication can be limited when you are abroad, you should set up the Authenticator app before your trip.

To add a phone number: Choose the Country of the SIM, then input the phone number. Then 'Next'.

Note: You can only add 1 phone number to receive authentication code.

To add a Authenticator App: 'Download now' if you did not have in on your device. Then 'Next'.
You can continue on the Step 3 of the Authenticator Set Up guide.
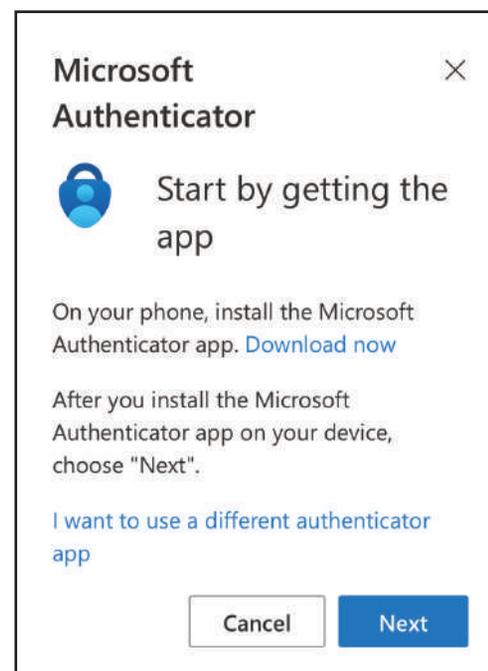

Note: You can set up the Authenticator app on multiple devices.
