“

The course materials were really enjoyable, our team felt them extremely relevant and the most enjoyable part was our teacher made all the materials for us to try in a real-life setting. The buddies, teachers and staff at RMIT made our experience in Vietnam an incredible experience and I can't wait to return.

“

I will definitely recommend it. It is probably one of my most favourite experiences. The staff, teachers, professors, basically everyone around here is so friendly and welcoming. You can just feel like you are at home. The class is very hands-on and enjoyable. You actually go out to the stores and do things practically.

If you are looking for a great Summer experience, I hope you will take this program. It is life-changing!
